LIBRARY TRUSTEES REPORT

The year 1966 saw the completion by the Trustees of the Book Selection Policy and the development of policies governing personnel and other internal rules of the library and stating general objectives of the library. These policies fulfill one of the requirements for affiliation in the state library system. Such affiliation is highly advantageous to small libraries because through centralized purchasing an extra discount on the price of new books is obtained, some clerical work is done at the state library, the privilege of borrowing books from any affiliated library is extended to any card holder in good standing in an affiliated library, and a grant for basic reference books is made by the state. Your Trustees hope to be able to meet the other qualifications such as those pertaining to physical facilities by the time they become mandatory in 1972.

The librarian and a trustee have continued to attend the district book buying meetings.

The Trustees acknowledge with thanks the continued help of the Friends of the Library, especially their most generous gift of \$75.00 to the Building Fund, and the very welcome gift of an additional file drawer. The South Hampton P.T.A. again gave \$40.00 for children's books to supplement the school library program in recognition of children's book week.

We wish to thank those who have aided the library through gifts of books, money and time: Miss Ruth Evans, Mrs. Lester Gibson, Mrs. Paul Rice, Mrs. Wesley Blanchard, Mrs. Mabel Boutwell, Mrs. William Crosby, Mr. Michael Sanotsuosso, Mr. James Goldthwaite, Mrs. David Bailey, Mrs. T. E. Littlefield, Mr. Wayne Blanchette, Billy Burke, Mrs. Stratos Janos, Mrs. Elwood Dixon, Mr. Walter Goldthwaite, Mr. & Mrs. Walter Ross and family, Mrs. Norman Blinn and Mrs. Robert Fraser.

**REPORT OF THE FOREST FIRE WARDEN
AND DISTRICT CHIEF**

Fire records are made by people - - those who cause fires and those who control them. Your forest fire warden deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of wood lot

owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres - - - a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A.M. and 5:00 P.M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.

3. Don't leave a live camp or cooking fire.

4. Most important - Instruct your children that matches are not play things.

TRULY - ONLY YOU CAN PREVENT FOREST FIRES

At this time as I did last year, I would again like to thank all persons who worked along with the department State Police, Sheriff's department, Local Chiefs and officers in bordering towns and especially Lloyd Currier for maintaining our radio. Again this year the radio has proven itself helpful in many ways. We are in great need of another unit, which I hope the townspeople will see their way clear to let us have. We had a rash of fires and our share of accidents and many miscellaneous calls. The department has worked long hours answering 215 calls. We have given free service to all town activities and to our local Ball Club. We belong to the Rockingham County Law Enforcement Association which meets on the first Thursday of each month, thereby enabling us an opportunity to meet police officers and chiefs from all surrounding towns and to discuss any issues that might arise. We have, to the best of our knowledge and ability, endeavoured to serve you, the taxpayer, courteously and for the best interests of the town.

Thank you,
The Police Department
John J. Santosuosso, Chief

REPORT OF THE CONSERVATION COMMISSION

This Commission was adopted at the 1966 Town Meeting for the purpose of promoting conservation and wise use of our natural resources, and to protect our human environment. There is concern across the State for better land use and an orderly growth pattern. This area faces an indicated tripling of its population in the next six decades. Education about such problems and their best solutions and active interest by all responsible citizens are needed. We seek suggestions from all residents.

Members have attended meetings with various related organizations. They will meet soon in Concord for a briefing by staff people of State and Federal resource agencies. We hope to repeat the Roadside Cleanup Campaign which was conducted last year with the fine cooperation of the local youth groups. There is legislation, both State and National, which requires our attention and subsequent action.

The efforts of the Commission will be directed to communicating the value of and the benefits from the land, air and water about us, today and in the years ahead.

Respectfully submitted,

SOUTH HAMPTON TOWN REPORT**SOUTH HAMPTON SCHOOL DISTRICT****WARRANT - ANNUAL MEETING****THE STATE OF NEW HAMPSHIRE**

To the Inhabitants of the School District in the Town of South Hampton, in the County of Rockingham, State of New Hampshire, qualified to vote upon District affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE TOWN HALL IN SAID SOUTH HAMPTON ON MONDAY, MARCH 6, 1967, AT 8:00 O'CLOCK IN THE EVENING, TO ACT UPON THE FOLLOWING SUBJECTS:

NOTICE: SCHOOL DISTRICT OFFICERS ARE TO BE ELECTED AT THE TOWN MEETING (SOUTH HAMPTON TOWN HALL, BEGINNING AT 2:00 P.M.) IN ACCORDANCE WITH THE STATUTORY ELECTION PROCEDURES ADOPTED BY THE DISTRICT AT ITS MARCH, 1966 ANNUAL MEETING.

1. To see what action the District will take relative to the reports of Agents, Auditors, Committes, or Officers Chosen.
2. To see if the District will vote to establish a Contingency Fund in accordance with the Revised Statutes Annotated 198:4-b, such contingency fund to meet the cost of unanticipated expenses that may arise during the year, and further to see if the District will appropriate the sum of \$500.00 for this purpose.

Note: During the past Legislative session a law was passed allowing school districts to tudget for a contingency fund not to exceed one per cent of the amount appropriated for school purposes, exclusive of capital expenditures and amortization of debt, during

the preceding year. This Act allows money to be raised from taxes. However, the school board proposes to continue to budget a contingency as income as well as expenditure; or, in other words, no money may be spent unless some is received from a source over and above the district assessment. The School Board feels that the contingency should be provided so that any additional monies received, with the maximum set limits, could be spent by the School Board. Since budgets are being planned 18 months in advance this article allows the School Board to accept and expend monies that were unforeseen during budget preparation such as a grant from a trust fund.

3. To see if the District will raise and appropriate the sum of \$2,000.00 to be placed in the capital reserve fund created at the March 1965 meeting for the purpose of "constructing, reconstructing, and equipping a public school or acquisition of a building to be used as a public school by the District or the acquisition of land for the District."

4. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District officials and agents, and for the payment of statutory obligations of the District. (Budget Committee recommends \$75,022.75, which includes articles 2 and 3 above.

5. To transact any other business that may legally come before said meeting.

Given under our hands and seals at said South Hampton this eleventh day of February, 1967.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Members of the School Board,
South Hampton, N.H.

I hereby submit my first annual report to the South Hampton School Board, South Hampton, New Hampshire.

My duties as Superintendent of Schools officially commenced on September 15, 1966. This date was set by the Portsmouth Board of Education and the School Boards of Supervisory Union #21. During the month of August, however, I was extended the opportunity to visit the schools of this supervisory union on several occasions to become acquainted with facilities, policies and personnel. The last week of August was devoted to the annual administrators conference. The entire week of day-long sessions was a most interesting and productive week. It became obvious to me that a great deal of fine preliminary planning went into this activity, the results of which are quite apparent as one visits the school at South Hampton as well as those of the towns which comprise this supervisory union.

At the outset, let me say that I am very pleased with the instructional program and professional staff of your school. I find that we have quality materials in each school with which to do our teaching. I have observed dedicated staff members intent upon giving their best in order that our children may benefit.

However, we must not become complacent in thinking that all must remain the same - - not in this day and age of rapid change. Already we are at work locally as

professionals in studying our curriculum to keep it in focus with day-to-day advances. A good school system incidentally is judged by this very factor, among others. At this writing we are studying our social studies curriculum, modern foreign language program, art and music programs with the hope of providing continuity needed in all grade levels.

Under Title III of P.L. 89-10 we are involved in two projects locally. In cooperation with WENH-TV Channel 11 in Durham, a grant was authorized which provided updated in-service education for teachers in Art and Science. The Instructional Materials Center under the able direction of Mr. Brooks is directly responsible for instructional improvement at all levels. I see evidence of the Center's influence each time I visit the Barnard School. Through this facility teachers have come to realize that teaching methods can and must change. The learning rate of our students has gained speed and momentum with each passing day. We therefore are charged with adjusting our program accordingly.

The nation's school population is growing with each school year. Here in South Hampton the school housing problem is not serious. Here are two charts which give statistics based upon June 1966:

With the coming of a new set of elementary school guidelines in New Hampshire*, we are committed to the principles of sound planning and true evaluation of what present and future elementary school buildings should be like if we are to meet the many new challenges facing schools in the '60's.

It has been and always will be my sincere intent to keep the public informed about local, state, and national educational affairs. It is my job to keep school board members informed of developments regarding organization, programming, and staffing of schools under their jurisdiction. My affiliation with several national, regional, and state educational groups assists me in passing on much information which applies to our local school problems.

Since there has been and should be a continued interest in consolidation of school districts in this state, as well as in the nation, the reactivation of the Cooperative Study Committee seemed advisable early in my tenure here. A reorganization session has been held with appointed representatives from Hampton, Hampton Falls and North Hampton present. At my suggestion the School Board of South Hampton will show some interest in this study committee by attending the meetings set for January and February, 1967. If for no other reason the members will gain insight into the problems of merging school districts.

*Guidelines and Recommendations for New Hampshire Public Elementary Schools
(K-6) Dept. of Education, Concord, N.H., 1966

This Supervisory Union has been conducting two special education classes offered to those young people who have learning disabilities. While this type of program may be called expensive by a few of our critics, your school administrators are convinced that we must continue to offer special programs geared specifically to ability and achievement levels. The Town of Hampton has housed these classes for the past few years. Approximately 50% of the children involved are Hampton pupils.

At a recent meeting of the School Board it was my recommendation that we acquire the services of a reading specialist. This service would be much too expensive for South Hampton to carry alone. There are two other towns in this supervisory union, namely New Castle and Hampton Falls that are somewhat similar in size and scope. These two towns have agreed to pay a share of the salary with the hope that South Hampton will join forces. The amount of money involved is \$1,200.00. The kind of service and benefit to the teachers and pupils at the Barnard School will be extensive and far-reaching. This program will be tried for a year with periodic progress reports made to the board members by this office.

The past few months have been challenging ones indeed for me. They have been quite revealing for I have observed dedicated and competent staff members at work in each building. Our school administrators are providing the kind of assistance, implementation and supervision of curriculum and personnel that makes for a most satisfactory school system.

I have high admiration for the unselfish manner in

which individual school board members carry on their difficult and time-consuming roles as public servants -- their interest and dedication is commendable.

The Supervisory Union Office Staff is deserving of a great deal of praise for the efficient manner in which they carry on the business affairs for eight separate school districts comprising 11 schools with a total staff of approximately 300, involving a total budget of nearly 3.2 million dollars.

Respectfully submitted,

Paul L. O'Neil
Superintendent of Schools
